Documentation for Online Travel Site

The web squad

Group members :
Nilesh K Shukla
Kundan Kumar
Shikhar Shukla

Problem statement :
We have created a website named GBU travels that helps you to choose different locations to travel to in India, It also gives you overviews of popular locations in different states …..

REQUIREMENTS:

VS CODE, TEXT EDITOR

TECHNOLOGIES USED :

HTML , CSS

PROJECT DESCRIPTION:

This web application GBU TRAVELS   is an online service for touring Incredible India. It is aimed at providing information about important places of interest. Not only can visitors read and know more about these places, It also suggests travel plans based on users' preferences. To make touring more exciting visitors can also share their experiences through the forums on the website

website.
